Exploring Clinical Excellence in ENT Care

Ascent established in 2014 and is recognized as the first ISO and NABH accredited ENT Hospital in Kerala. Ascent ENT super specialty hospital, Perinthalmanna took its place among the best of the best speciality hospitals in the region. Soon after, it expanded its next venture at Palakkad in 2016 and to Calicut in 2017. Ascent is passionate about providing uncompromised and the most premiere standards of ENT care to its patients. We offer a one-stop comprehensive service for the assessment, diagnosis and treatment of a complete range of ear, nose, throat, head and neck disorders. With the finest doctors, cutting-edge technology and nursing with a smile, you are in safe and caring hands. Our surgeons are experts within their specialities and subspecialties in ENT. Ascent's meticulous teamwork assures you complete and correct evaluation of your problem with most modern facilities in the field. This will ensure to pinpoint the diagnosis and proper treatment with high clinical outcomes.

As the name 'Ascent' explains itself, each team member of Ascent tries hard to explore the innovations in the field and we are climbing the great summit of ENT care since 2014. We have created the highest quality ENT healthcare ecosystem that always strives to improve the quality of life of our patients and communities

Chairman's Message

Ascent is an exclusive ENT super specialty center, which offers a one-stop comprehensive service for the assessment, diagnosis and treatment of the complete range of ear, nose, throat and head & neck disorders. Our team is very much passionate about providing the premier standards of ENT care with finest doctors, cutting edge technology and nursing with utmost care, compassion and a smile. Our surgeons and other professionals are well trained with their sub-specialties from internationally known centers and are constantly updating with the latest technology and newer advances in ENT care. We are committed to provide the highest standards of ENT care across our hospitals located in Calicut, Perinthalmanna and Palakkad - Kerala, India. Our advanced infrastructure, proficient staff and highly qualitative audiology and vestibular labs make us one of the top ENT hospitals in the country. Ascent ENT Hospital has also been a desired destination for international patients especially from Middle East seeking specialized ENT Care services in India. We assure you that each of our team member is committed to deliver the highest quality of health care service and our dedicated professionals always strive to explore new heights in ENT care for better patient care.

Yours Faithfully

Dr. Sarafudeen PK

Chairman & Managing Director
Ascent Group of ENT Hospitals
Kerala, India

**Serving You for a
Better Tomorrow**

- Rehabilitation of post Cochlear Implantees
- Voice therapy
- Assessment and management of various communication disorders
- Dysphagia management
- Preventive care of hearing loss

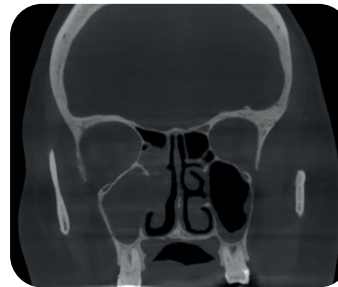

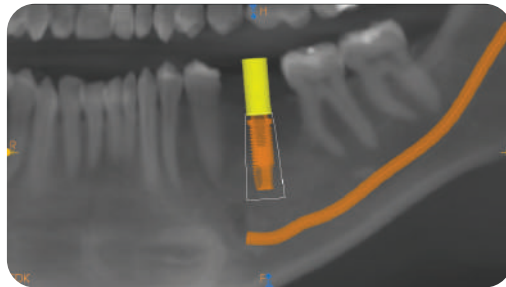

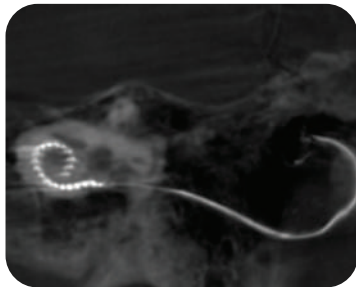

CBCT SCAN CS 9600 – (16X17 FOV)

CBCT CS 9600 – 16X17 FOV from  **Carestream** is a new dimension ENT and Dental imaging. This is a brilliant very low dose radiation scan than conventional multi slice CT Scan (77% low radiation).

This very high resolution (0.075 mm) scan is excellent for visualization of Middle and inner ear structures.

Advanced Metal Artifact Reduction (CS MAR) and live positioning assistant softwares are very unique features of CBCT scan helping in precise diagnosis of ENT and Dental diseases.

CBCT scan has revolutionised the imaging in Dentistry especially for Dental Implant and Endodontic treatment planning. Newer CBCT also has CS Airway analysis software which is very useful for upper airway assessment.

Balance Clinic at Ascent

Vertigo is a very common health problem in general populations and the cause for this complex medical symptom may vary from simple positional vertigo arising from the inner ear to very advanced brain tumours.

Ascent has a dedicated balance clinic equipped with Balance Eye from Cyclops meditech, VEMP and other neuro otological tools to pin point the cause of vertigo and other balance disorders.

In Balance clinic our experts perform Videonystagmography (VNG), oculomotor examinations, Subjective tests like SVV and SMP.

This platform help clinicians to perform both diagnostic and therapeutic repositioning maneuvers for most of the common causes of vertigo like BPPV (Benign Paroxysmal positional vertigo).

Reaching The Summit

- First NABH & ISO Certified complete ENT Hospital in Kerala
- Empanelled Hospital for “Sruthitharangam” – Kerala Govt project for Cochlear Implantation surgery for deafness
