

FELLOWSHIP IN AUDIO VESTIBULOMETRY

ascent  ENT
HOSPITAL
KOZHIKODE | PERINTHALMANNA | PALAKKAD

www.ascenthospital.com

OVERVIEW

The fellowship is dedicated to provide training for professionals in audio-vestibulometry. We are expecting our fellows to gain expert level experience in ENG, VNG, Caloric test, VEMP, BERA, OAE, ASSR and basic Audiology tests. We look forward to meet candidates who have interest in assessment and rehabilitation of audio-vestibular disorders.

ELIGIBILITY

The fellowship is open to qualified professionals in the specialty of Audiology and Speech language Pathology (BASLP, MASLP, MSc. Audiology)

SCOPE

The number of cases identified with balance disorders is increasing. However the demand for trained professionals in this field does not meet the availability. The fellowship is intended to improve clinical care of patients suffering imbalance and dizziness and empower professionals

AIM OF THE PROGRAMME

The aim is to provide training foundation for those young Audiologists who want to peruse their professional career in the field of audio-vestibulometry. During course the candidates are expected to deal with different clinical diagnostic and rehabilitative aspects of auditory and vestibular disorders.

DOMAINS OF EXPERIENCE

- Basic Audiological Assessments.
- Electrophysiological assessments including various Auditory Evoked potentials.
- ENG,VNG, Caloric test, VEMP
- Case presentation and seminars in audio vestibulometry.

DURATION OF FELLOWSHIP

The structured program is designed for 1 year training in audio-vestibulometry.

LOCATION

Currently the program is only opened at our Perinthalmanna Centre.

NUMBER OF SEATS
